(1) an estimate of the total cost of installing an all air system;

(2) a time line for installing the HVAC system;

(3) an evaluation of the level of risk of patient contamination with the new HVAC system;

(4) an assessment of the work that may proceed in fiscal 2002 given that full funding for the HVAC system has not been appropriated; and

(5) an assessment of alternative plans to installing a new HVAC system, including constructing a new building or an addition to the existing building. The assessment should include cost estimates, an evaluation of the need for maintaining or increasing capacity, and an evaluation of the structural and programmatic issues that could be addressed with a new building or addition 7,800,000
