The Maryland Civil Defense Agency was established by the Maryland Civil Defense Act of 1949. The Director of the Agency is appointed by the Governor. The Agency prepares for, and, in the event of enemy attack or natural disaster, will carry out, emergency functions other than those for which military forces are primarily responsible, and will minimize and repair injury and damage resulting from any such disaster. The Agency also cooperates with the Federal government, the governments of other states, and local political subdivisions of this State in organizing and coordinating civil defense plans. It represents the State in the procurement of supplies and equipment for civil defense purposes under the Federal matching funds and surplus property programs. The Director is responsible to the Governor for the coordination of the State's disaster operations in the event of the declaration of a "major disaster" within Maryland under the provisions of P.L. 875, 81st Congress, as amended (Code 1951, Art. 41, secs. 203-214; Art. 75C, sec. 6A).

The Civil Defense Advisory Council is appointed by the Governor and its members serve without compensation. The Council advises the Governor and the Director of the Civil Defense Agency in civil defense matters.
