This Commission was originally appointed by Governor Tawes in 1965 to develop to its fullest extent the potential of the women of Maryland. Governor Agnew reactivated it in 1968 as part of the continuing effort to promote human understanding and solve the pressing social problems which now confront the State and the nation. The Governor directed the reorganized Commission to review the recommendations of the previous commission in the areas of education, employment, community and civic participation and to take steps to implement those most pertinent. The Commission was also directed to seek the cooperation of existing organizations on the State and local levels in identifying problems, and to work toward increasing the opportunities for women to serve in a variety of fields. The Commission is to submit its recommendations and reports at a later date.
