This school was originally created by Chapter 719, Acts of 1966. It is headed by a Director and five Assistant Directors, each of whom is appointed by the Governor by and with the advice and consent of the Senate for four-year terms.

The school was established for persons under twenty-one years of age who are placed on probation before verdict in connection with any charge for violation of any of the motor vehicle laws of the State or any criminal law, whether State or local, over which the District Courts have jurisdiction when referred by the District Court or other judicial officers of Baltimore County. The school includes courses in driver safety, civic responsibility, America and its heritage, and the ramifications, present and future, of violating the laws of the State, both as to the individual and the community. All probationers must attend classes, which are held in the District Court rooms (Code 1957, Art. 27, sec. 646).

The Governor originally appointed this Commission in 1967 to replace the Commission on Crime and Delinquency. The Commission's functions were revised by Executive Orders in 1969, 1971, and 1975. The present Commission was reconstituted by Executive Order in 1978. Commission membership is representative of all segments of the criminal and juvenile justice systems and one-third of the group is comprised of private citizens-at-large.

The Governor's charge to the Commission requires it to assume broad responsibility in crime control policy coordination and problem resolution. Among the specific gubernatorially-mandated areas of Commission involvement are: the dangerous mentally ill offender; overcrowding in prisons and local jails; juvenile delinquency prevention and improving the administration of juvenile justice; improving the services provided to victims of crime and witnesses in State cases; and providing information to better coordinate State and local funding mechanisms for law enforcement and criminal justice agencies.

The Commission is also the State agency responsible for law enforcement, criminal justice, and crime prevention planning in Maryland. In this capacity the Commission administers the Federal Crime Control Acts and the Juvenile Justice and Delinquency Prevention Acts. The Commission is responsible for developing the State's Comprehensive Law Enforcement and Criminal Justice Plan and for making grants to local governments and State agencies for programs consistent with that Plan.

A staff headed by an executive director and composed of well-qualified professionals in the fields of law enforcement, courts, corrections, juvenile delinquency prevention and control, data systems, financial administration, auditing, and publications provides support to the Commissioners. The staff develops Comprehensive Plan proposals for the Commission's consideration, provides technical assistance to units of local government and other State agencies, administers all grant programs, evaluates all projects funded by the Governor's Commission, and assists in the preparation of such special reports as the Governor, Legislature, and the Commission may from time to time request.
