

The University of Maryland is under the administration of a fifteen-member Board of Regents. Fourteen of the members are appointed by the Governor with the advice and consent of the Senate. Twelve serve five-year terms and two are student members, appointed for one-year terms. The remaining member, the Secretary of Agriculture, serves ex officio with voting privileges (Code Education Article, sec. 13-102).

The Board of Regents may issue revenue bonds to finance the building of dormitories and other student housing facilities. The Regents issue such bonds directly, with the payments of principal and interest made from revenues realized from the use of the building (Chapter 22, Acts of 1978).

The University's Central Administration (UMCA) is responsible for the operation of the five-campus system. Located in Adelphi, UMCA includes the offices of the president, the executive vice-president, and the six vice-presidents. Part of UMCA, the Office of the Vice-President for Academic Affairs administers the University-wide Maryland Institute for Biotechnology, which brings together in one unit the University's expertise in this field.

Campuses of the University are located in Baltimore (UMAB), Catonsville (UMBC), College Park (UMCP), and Princess Anne (UMES). University College (UMUC) is headquartered in the Center of Adult Education at College Park. It administers adult and continuing education courses and programs at sites throughout Maryland and in Europe and Asia.

The University-wide Graduate School embraces all of the graduate programs of the University with liaison among the campuses maintained by a Vice-President for Graduate Studies and Research and through the President's Advisory Committee for Graduate Studies and Research.
