The Governor's Construction Industry Employers' Advisory Council was established in February 1988 by the Governor (Executive Order 01.01.1988.04). The Advisory Council assists the Governor in devising strategy to foster a healthy and expanding construction industry in Maryland. The Council reviews State and local problems affecting the industry and recommends solutions to the Governor.

The Council submitted an interim report to the Governor in June 1988 and annually reports to the Governor each December.

By Executive Order, the Governor created the State Data Security Committee in 1983. The Committee establishes computer security policies and standards for State government agencies in the Executive Branch. The Committee regularly evaluates and tests the security of State agency systems that contain computerized records.

Annually, the Committee reports to the Governor and to the chairpersons of appropriate legislative committees.

The Committee consists of nine data professionals within State service. One member is appointed from each of the following agencies: Comptroller of the Treasury; Department of Budget and Fiscal Planning (whose representative serves as chairperson); Department of Public Safety

and Correctional Services; Department of Transportation; and University of Maryland System. Four members are appointed by the Governor upon recommendation of the chairperson. Any agency security officer assigned to the Committee may not participate in any computer system security analysis of that officer's own agency by the Committee.

The Maryland Disability Law Center originated as the Maryland Advocacy Unit for the Developmentally Disabled which was created in 1977 by the Governor (Executive Order 01.01.1977.07). Established in accordance with federal statute (P.L. 94-103), the Advocacy Unit became the State's official agency designated to protect and advocate the rights of the developmentally disabled in Maryland. The designation qualified the Unit for federal funding under the Developmental Disabilities Assistance and Bill of Rights Act (P.L. 95-603). By that funding, attorneys represent developmentally disabled persons with legal problems in areas such as abuse and neglect, discrimination, special education, and public benefit entitlements.

In 1984, the Board of Directors renamed the Advocacy Unit as the Maryland Disability Law Center. This name change reflected a change in function: the office no longer represented only the developmentally disabled, those whose disability becomes evident before age 22. Instead, the Center had become a statewide legal services program for persons disabled by impairments such as cerebral palsy, mental retardation, learning disabilities, mental illness, and deafness.

The Center is funded by a number of sources besides its federal "protection and advocacy" grant. The Maryland Legal Services Corporation financially aids the Center to represent indigent disabled persons throughout the State in noncriminal matters. The Department of Human Resources funds
