1939, ch. 752, sec. 1.

1. (General Provisions.) Only qualified persons to hold themselves out as professional engineers and land surveyors. It is hereby declared that in order to safeguard life, health and property and to promote the public welfare by requiring that only properly qualified persons shall hold themselves out as professional engineers or land surveyors or use the designation of professional engineer or land surveyor in the State of Maryland, such persons shall be compelled to submit evidence that they are qualified to practice professional engineering or land surveying, and shall be registered as hereinafter provided.

1939, ch. 752, sec. 2.

2. (Definition—Engineer.) The term engineer as used in this Article shall mean a professional engineer as hereinafter defined.

(Definition—Professional Engineer.) The term professional engineer as used in this Article shall mean a person who is qualified by reason of his knowledge of mathematics, the physical sciences, and the principles of engineering, acquired by professional education and practical experience, to engage in the practice of professional engineering as hereinafter defined.

(Definition—Engineering.) The term engineering as used in this Article shall mean professional engineering as hereinafter defined.

(Definition—Professional Engineering.) The practice of professional engineering within the meaning and interest of this Article includes any professional service, such as consultation, engineering investigation, evaluation, planning, design, or responsible supervision of construction or operation, in connection with any public or private utilities, structures, buildings, machines, equipment, processes, works, or projects, wherein the public welfare or the safeguarding of life, health or property is concerned or involved, when such professional service requires the application of engineering principles and data.

(Definition—Article Inapplicable To Certain Operators, Etc.) The practice of professional engineering shall not include the work ordinarily performed by persons who operate or maintain machinery, or equipment.
