

## APPENDIX

---

*Containing references to the Public Local Laws of the several Counties and the City of Baltimore relating to subjects covered by the several Articles of the Public General Laws, and modifying the Public General Law or declaring it inapplicable in whole or in part to the Counties, or some one or more of them, or to the City of Baltimore, or making local provisions additional or supplemental to or repugnant to the General Law upon the same subjects, so that by examination of these several Local Laws, the applicability of the Public General Law and the extent of such applicability may be ascertained.\**

\* The references in the Appendix are confined to the subjects covered by the several Articles of the Public General Law and do not cover legislation upon matters altogether local and special. Comparatively few of the Acts thus referred to were passed as distinct amendments of specific Articles of the Public General Laws, but rather as additions to or substitutes for existing Public Local Law. As, however, they relate to and cover subjects embraced in Articles of the Public General Law, they are arranged in the Appendix under the Articles of the Public General Law to which they appropriately belong.
