

1 MR. BROOKS: I wanted to mention in terms of
2 the transcript, I thought we would make it available to
3 Dr. Loevy, from which he could extract the minutes and
4 make it available to the people who are absent, in which
5 case we could Xerox and perhaps have some copies to send
6 out in the future, and I wanted to ask you if you thought
7 it was desirable to make copies available to the Committee,
8 including the persons present today. This transcript
9 will have some editing. We won't attempt to reproduce
10 it in any quantity and in any detail.

11 THE CHAIRMAN: I see no reason not to do that.
12 I think it falls within the purpose of educating the
13 individual members. As we go back over the transcript,
14 it will also give us further thoughts of our own. I am
15 sure it would be helpful to you, Dr. Loevy, in making up
16 the minutes. I don't mean the transcript to be a sub-
17 stitute for the minutes, but I think the minutes could
18 more accurately reflect the proceedings.

19 All right, gentlemen, the meeting is adjourned.

20 (Whereupon, the meeting adjourned at 5 o'clock
21 p.m.)
