

1 like, and then maybe take a short break and bring some  
2 lunch up here, if you find it necessary? We can get it at  
3 the snack bar downstairs and bring it up.

4 Another way would be just to finish up all we  
5 have on this agenda that might be completed. Does anyone  
6 object to going until 1:00, and then taking stock at 1:00?  
7 Are there any suggestions you want to make in terms of the  
8 proposed agenda for today? If not, I want to thank these  
9 gentlemen again for being with us and, while we have listed  
10 them individually, they really are a panel.

11 I want to take this opportunity, too, to tell  
12 Mrs. Freedlander and anybody else who isn't on our particu-  
13 lar Committee how grateful we are that they have come to  
14 join us today.

15 We shall start, now, and I know you may want to  
16 take some notes of your own as we go along. I hope you  
17 have had the opportunity to at least glance through the  
18 very fine report by Mr. Michener. Keep in mind, as we  
19 hear these reports, that there are really two questions of  
20 great significance; the question of the material itself  
21 and, secondly, the question, are we going to propose to the
