ASSESSMENT OF AUTOMOBILES

Upon investigation, we ascertained that automobiles were not generally assessed throughout the State, and that where they were assessed no uniformity prevailed as to the assessment of automobiles of like value. We procured and forwarded to the several Boards of County Commissioners copies of the list of registration of automobile licensees, as compiled by the Automobile Commissioner, and also a price list of all makes of automobiles, with instructions that they serve notice on the resident owners to the end that all automobiles be properly assessed in accordance with a general rule as to valuation, as follows:

1st year in use,	66 $\frac{2}{3}$ %	of catalogue price.
2nd " " "	50%	" " "
3rd " " "	40%	" " "
4th " " "	30%	" " "

and after the fourth year according to the judgment of the assessing body.
