

EXECUTIVE ORDERS

forth in Section A of this Order, by July 1, 1989 and October 1, 1989, respectively. Such actions shall include:

- (1) The transfer of appropriate positions.
- (2) The transfer of equipment and furniture associated with the transferred positions, including all computer equipment and peripherals currently utilized by the employment and training management information system.
- (3) The transfer of appropriate records and accounts.
- (4) The transfer in accordance with contract of all funds, with the exception of those funds necessary to fund those JOBS activities which are not delegated by the Department of Human Resources, to the Department of Economic and Employment Development by approved budget amendment. This transfer shall not include funds necessary to operate the Young Fathers Program.
- (5) The furnishing of information to the appropriate government agencies and the public concerning the transfer of responsibilities and functions pursuant to this Executive Order.
- (6) The audit and close-out of all records and accounts pertaining to the current year programs by Department of Human Resources.

D. Effective upon the signing of this Executive Order, the Secretary of the Department of Economic and Employment Development, working in cooperation with the Secretary of the Department of Human Resources, or their designees, shall be responsible for the management of the transition, and the development and implementation of an agreement of cooperative management of the JOBS Program and Food Stamp Employment and Training Program.

EXECUTIVE ORDER OF JUNE 23, 1989

01.01.1989.10

Statewide Conservation Program

WHEREAS, The State is committed to protecting our precious heritage for present and future Marylanders; and

WHEREAS, It is our sworn duty to acquire and protect the assets of the State, using those resources necessary to meet public needs, but replenishing them where possible; and

WHEREAS, It is important to reaffirm the need to encourage the conservation of all our resources; and

WHEREAS, Materials and services must be suitable for the purposes intended, have the lowest total cost of ownership, and be internally controlled to secure maximum benefit; and
