

caption title has been used.

Arrangement is by year, and under year by author. If the author is not known, or if there can be no author (as in the case of periodicals) the title serves as main entry.

Blank forms, except those listed in Evans' American Bibliography have not been included. Forms may be found at the Enoch Pratt Free Library, Baltimore, the John Carter Brown Library of Providence, the New York Public Library, and the United States Customs House, Baltimore.

Since Evans' American Bibliography is the basic source for the compilation of a bibliography of this nature, any item not included in Evans' American Bibliography has been designated "Not in Evans." Since Evans stops with the M's in 1799, no item listed after that point carries an Evans number, or the designation, "Not in Evans."

In the case of publications with more than one place of publication listed in the imprint, those publications have been included only if the Maryland city comes first in the imprint, or if it is clear that the item was printed in Maryland.

Certain abbreviated forms have been used in referring to standard bibliographies. They are:

Brigham	Brigham, Clarence Saunders. <u>Bibliography of American newspapers, 1690-1820. Part III. Maryland to Massachusetts (Boston). (In American antiquarian</u>
