It gives me much pleasure to report to the members of the Hall of Records Commission that during the fiscal year 1951 there was only one change in the professional staff. On the first day of the year, that is July 1, 1950, Mrs. Cary T. Peebles became Senior Stenographer succeeding to the position formerly held by Mrs. Flora M. Jones, who had resigned on May 31, 1950. I am also pleased to report that Mrs. Jane Revell Moss, who retired November 30, 1949, continued to give us one day's work every week in the repair room on a voluntary basis.

For some years now the maintenance staff has been under the control of the Department of Public Buildings and Grounds. Until this year it has been possible to report the names of the men assigned to us as watchmen, but under the new administration a system of rotating watchmen from one building to another has made this task next to impossible. I am, therefore, reporting only the names of those men who were here for most of the year. I regret to say that we have lost the services of Orlando Duvall, who had been a watchman for several years. I am sorry to note, too, that one of our watchmen, Daniel C. Taylor, Sr., was drowned in November, 1950. The cleaners have been with us for many years, Martha Scisco being the only original member of the Hall of Records staff still in our employ.

During the course of the year the office of the State Employment Commissioner made a survey of the staff of the Hall of Records and at this writing his recommendations have been received. However, since no changes have been made as yet, little would be gained by reporting details.

When the new fiscal year began July 1, 1951, salary increases authorized by the General Assembly took effect. In some cases the increases were substantial, and every employee of the Hall of Records Commission benefited in some degree.
