LIBRARY

Growth of our library continued at the same deliberate pace as heretofore. There were no striking accessions; but on the other hand, there were many useful works and ours is strictly a library for the use of the staff and for searchers who are here to consult original records. We were glad to accept two good runs of the *Sun Almanac*, some missing issues of the *Maryland Almanac* and copies of the genealogical notes of William N. Wilkins.

For the most part, the titles of our staff members explain their work. None of these titles would, however, indicate the individual responsible for the accessioning, listing and circulating of our printed books. This duty falls to the Junior Archivist in the Research Room, a position held during the past fiscal year by Miss Edna E. Jensen, a new employee. She has with admirable economy managed the library at the cost of little interference with her other duties.
