MECHANICAL PANORAMA,

It exhibits a Commercial and Manufacturing City, where is seen, at one view, Mechanics at their various employments, Carriages, Carts, Foot Passengers, Troops, Ships and Steam Boats entering and departing the City. It is considered the most ingenious piece of Mechanism ever exhibited in this country.

Every evening, at 8 o'clock, will be exhibited a rational and highly diverting amusement, commencing with a grand philosophical display of the *Magic Lantern*, and the wonderful expansion and diminution, occasioned by the surprising effects of the PHANTASMAGORIA, which will represent various figures, too numerous to mention, many of which will move either their eyes, arms, or feet.

The proprietors also inform the public, that they have added a choice collection of WAX FIGURES.

Profiles neatly taken and framed. Museum open every day (Sundays excepted) and handsomely illuminated, every evening, with Gas. Admittance 25 cents, children half price. Annual Tickets can be had at the Museum.
