

MR. E. B. TAYLOR.

Mr. E. B. Taylor, the well-known caterer, during the year has enlarged his business to such an extent that he has formed a \$80,000 corporation, known as E. B. Taylor, Inc., with himself as president. None of the stock was offered for public sale, and the concern has done a very large business. Mr. Taylor continues his charitable interests as director of the Home for Friendless Colored Children, chairman of the Redress Committee of the N. A. A. C. P., Chairman of Citizens' Committee Provident Hospital, etc. This is an entirely unsolicited testimonial to him, from the author of this volume, who realizes the worth of young men like him in a community—men the size of whose heads is not increased by success.

Mr. Taylor is a 33rd degree Mason, an Elk and a Pythian. He received his last degree in Masonry in Macon, Ga., about seven years ago, when he was probably the youngest 33rd degree man in the States. He has traveled much, having traversed part of Europe and most of this country, and twice a year he takes a trip to some place he has not visited.
