

MEDICATED FUMIE BATHS.

BRYSON GILL,

DENTIST,

Has (at the request of many Physicians) had erected at his residence,

No. 52 SHARPE STREET,

Between Lombard and Pratt Sts., one of those
CELEBRATED PATENT

SULPHUR-FUMIE BATHS.

For the cure of RHEUMATISM, SALT RHEUM, SCROFULA
FUNCTIONAL DISTURBANCE of the HEART, the
STOMACH, the LIVER, and the LUNGS.

“In 1816, Dr. GALES, of Paris, published, by order of the French Government, his Reports on the efficacy of **Sulphuric Fumigations**, in the treatment of diseases of the Skin, Joints, and Glandular System; Chronic Rheumatism, Paralytic affections, &c. &c.,” where it has been in constant use ever since.

The apparatus has recently been erected in many parts of this country, and meets the entire approbation of the Medical Faculty, being of the best construction for comfort and convenience.

The face is not included within the apparatus. The individual inhales as pure an atmosphere as when sitting in a parlor, and is wholly unconscious that his person is completely enveloped in a dense cloud of dry medicated vapor.

The amount of perspiration can be regulated at the will of the person in attendance, and may be more or less copious, as the nature of the disease and the condition of the patient may require.

The Subscriber has in his possession many extracts from the most celebrated Medical Journals and Physicians, which can be seen by any who wish to avail themselves of the **BATHS**.

If any have scruples about taking the BATH, we advise them first to consult their Physician.

B. GILL has Baths fitted up expressly for the Ladies, with female attendant: also, for the gentlemen, with male attendant.

Baths may be taken every day (Sundays excepted) from 8, A. M. to 6, P.M.

N. B.—Cupping and Leeching by Mr. and Mrs. Gill, as usual.

The best of LEECHES constantly for sale.
