

# KNABE & GÄHLE,

MANUFACTURERS OF

## GRAND AND SQUARE PIANO FORTES,

Nos. 4, 6, 8, 9, & 11 Eutaw St., Baltimore, Md.

The Maryland Institute for the Promotion of Mechanic Arts, awarded us the First Premium three years in succession, in 1848, 1849, and 1850; at their Annual Exhibition for 1849, we were fortunate enough to receive two First Premiums, one for our Grand the other for our Square Pianos. To these testimonials we confidently refer with pride and pleasure, especially as our instruments were placed in competition with those of the most celebrated manufacturers in the Country. Our Establishment is now the most extensive of its kind in the City, in which for thirteen years we have labored incessantly, sparing no pains and expense, to deserve the patronage so liberally bestowed on us. We have found an ample recompense in the testimonials to which we referred, as well as in the encomiums of the most celebrated artists visiting our shores and the hearty approval and custom of our own Professors and Amateurs. Miss Jenny Lind used one of our Grand Pianos at her Concerts.

At our Establishment may be constantly found on hand a large assortment of Six, Six $\frac{3}{4}$ , and Seven Octave Pianos, in plain and highly finished cases of Rosewood, Mahogany, &c. the interior work perfected by a judicious use of all the latest American and European improvements. Our instruments will be found particularly adapted to stand the sudden changes of our climate, a point to which we have devoted much attention. As another pledge that our instruments are well and faithfully made, we warrant their durability for five years under good care, and will replace, with others, all which may not give satisfaction, if application be made within the first six months.

Orders from the country attended to with all possible punctuality, and persons residing at a distance who may favor us with their orders, will find that it is not less our practice than our interest to send them such Instruments as bear the strictest scrutiny. The manufacturers will keep all Pianos sold by them in the
