STABLER'S DR. CHAPMAN'S WORM MIXTURE,

Prepared from a Recipe invented by Dr. JOHN CHAPMAN, a Member of the ROYAL
COLLEGE OF SURGEONS OF LONDON.

A REMEDY MORE EFFICIENT THAN THIS IS NOT KNOWN.

MANY (perhaps one-half) of the diseases from which children suffer, are occasioned by the presence of worms in the system, and if neglected give rise to the most uncomfortable and irritating feelings, violent pains, sickness at the stomach, emaciation, and frequently to vomiting. This medicine is an efficient, safe and pleasant remedy for their extermination; it contains all the virtues of the most approved vermifuges, and although it has been used by many thousands, and has been before the public for several years, it has NEVER BEEN KNOWN TO FAIL IN EFFECTING A COMPLETE CURE.

This most excellent Medicine has made its way into favor by its merits alone, unaided by advertisements or certificates of cures, (many thousands of which could be obtained,) yet it is deemed not inappropriate to print the following strong and convincing testimony from respectable Merchants who have kept it for sale.

"The subscribers, Merchants and Dealers, take pleasure in recommending to the public confidence, *Stabler's Dr. Chapman's Worm Mixture*, prepared by E. H. Stabler & Co., of Baltimore. We having, for several years past, kept this valuable Medicine for sale, and also used it in our own families, do, from our own knowledge of its admirable effects, backed by the universal commendations of the great number of our customers, who have given it trial, believe it a specific for worms in children:—we have never known it to fail, in a single instance, to relieve the little sufferers from that disease."
