TESTIMONIAL.

*Office Master of Road, Baltimore and Ohio Rail Road Co. }
BALTIMORE, March 19, 1855.*

GENTLEMEN:—We have used for the past six months the Shovels furnished this Company by your firm, and do not hesitate to recommend them in the strongest terms to Railroad Companies and Contractors, as the best that have come under our notice, excepting Ames', and equal to them in form and wear. During the past winter, we subjected them to a severe test on this Road, and they have given general satisfaction.

Respectfully,

**W. BOLLMAN, Master of Road,
THOS. C. ATRINSON, Assistant Master of Road.
JAMES P. JORDAN, Foreman Mount Clare.
PERRY G. MITCHELL, 1st Supervisor.**

A reference to the above official and conclusive testimonial, one out of many in our possession, will prove the high character which our Manufactures have attained. We shall continue to employ the same experienced hands and use the same superior descriptions of raw materials which have proved so efficient in securing the above result, and hence, feel confident of giving perfect satisfaction to our customers.
