

217C. For the purpose of this sub-title, a "camp site" shall be defined as that portion of any trailer camp designed for the use or occupancy of one trailer or camping party.

217D. (a) No person, firm or corporation shall commence the operation or construction of a trailer camp or shall construct additional buildings or reconstruct or move buildings in an existing trailer camp unless such person, firm or corporation shall first make application in writing to the County Commissioners of St. Mary's County, and obtain a permit therefor. Such application shall be accompanied by a description of the grounds upon which said trailer camp is to be constructed or reconstructed or upon which new buildings are to be erected in an existing trailer camp, together with plans and specifications of the proposed construction or reconstruction of such buildings and a description of the water supply, ground drainage, and method of sewage disposal.

(b) Within ten days after the filing of such application, accompanied by plans and specifications as aforesaid, the County Health Officer of St. Mary's County shall make an inspection and if in his opinion the place selected for such trailer camp is satisfactory for such purpose and if the plans and specifications of the proposed construction, reconstruction, alteration or moving meet the requirements of this sub-title, the County Commissioners of St. Mary's County shall issue to said applicant or applicants a permit for such work.

(c) For the purpose of defraying expense of inspection, checking of plans and other incidental costs, the application referred to shall be accompanied by a fee of twenty-five dollars, which fee shall be paid to the County Commissioners, for credit to the general funds; provided, however, that in case of any addition, alteration, or repair to buildings or equipment heretofore erected in any trailer camp, such application need not be accompanied by any fee.
