

of the Board and at an annual salary of Six Hundred (\$600.00) Dollars, payable monthly.

8-6.

The Board may appoint as its investigator a Master Electrician licensed in and resident of Anne Arundel County; and it shall be the function of such investigator to investigate all charges of violations of this chapter, and especially all complaints with reference to the pursuit of the trades of Master Electrician and Restricted Electrician by unlicensed persons. Out of the funds available in its hands the Board shall pay such investigator reasonable compensation.

8-7.

The Board shall meet at least once during each calendar month, and shall hold additional special meetings as frequently as the proper and efficient discharge of its business may require. All meetings of the Board, whether regular or special, shall be called by the President and timely notice thereof given to the other members. In the event of the absence or incapacity of the President, regular or special meetings may be called by the Secretary. At any meeting or hearing conducted by the Board the presence of two members shall constitute a quorum.

8-8.

The written text of all rules and regulations adopted by the Board in the pursuit of its functions as defined in Section 8-2, supra, shall be promulgated by the mailing of copies thereof to each and every Master Electrician and Restricted Electrician licensed in Anne Arundel County, and such rules and regulations shall become effective twenty (20) days after their mailing.

8-9.

The National Electrical Code as it is now written and as it may from time to time be amended is hereby adopted as the electrical code for Anne Arundel County, and each and every provision thereof shall constitute a rule and regulation of the Board.

8-10.

There shall be two classes of tradesmen's licenses, designated as that of Master Electrician and Restricted Electrician, and defined as follows:

(a) The designation "Master Electrician" shall include all persons, firms, and corporations who or which, by reason of practical experience and a reasonable knowledge of the natural laws of electricity and the functions of electrical conductors, appliances and devices, are qualified to engage in the trade or business of installing, erecting or repairing any and all manner, type or description of electrical conductors, appliances or devices for the utilization of electric current in the production of light, heat or power.

(b) The designation "Restricted Electrician" shall include all persons, firms or corporations who or which are qualified only to repair or to provide maintenance service to the electrical components of specific devices which utilize electrical current for their operation. On
