No. 8

(Senate Joint Resolution 2)

Senate Joint Resolution requesting the State Department of Health through its Bureau of Environmental Hygiene to study ways and means of providing for an adequate system for collection and disposal of solid waste materials in cooperation with public and private organizations and to report a comprehensive and coordinated State-wide program to the Legislative Council.

WHEREAS, The Legislative Council was requested in Joint Resolution 30 (House Joint Resolution 32) of 1965 to study the problems involved in the collection and disposal of solid waste materials in Maryland, and

WHEREAS, As the Council found in its review of the problem assigned to it, the collection and disposal of solid waste materials is a serious economic and health problem for the State, and

WHEREAS, The Legislative Council has recommended as a solution to one aspect of this overall problem legislation to authorize and facilitate the construction and operation of landfill and incinerator disposal of these materials, and

WHEREAS, The Council recognized that the overall solutions to collection and disposal of solid waste materials involves review of technological processes which can best be accomplished by the State Health Department in cooperation with private industry and other governmental agencies, with a report to be made to the Council from which legislation could be developed, and

WHEREAS, The State Health Department in preparing its report should confer with representatives of the automobile and steel indus-
