No. 38

(Senate Joint Resolution 50)

Senate Joint Resolution requesting the County Commissioners of St. Mary's County to study the recommendations of the Beautification Committee of that County, for purposes of incorporating plans, and procedures, for the correction of soil erosion, preservation of economy, and beautification of public and private lands and roads.

WHEREAS, Sediment control should become a stated policy of the county government of St. Mary's County and all concerned public agencies operating in or having jurisdiction in the county; and

WHEREAS, Land administered by the county should be operated in a manner to set an example of good land use and sediment control, in order to preserve and protect the oyster beds and economy of St. Mary's County; and

WHEREAS, Standards and specifications for county roads should include adequate erosion and sediment control measures, particularly for roadbanks, and

WHEREAS, The County should investigate the possibility of planting road shoulders to a traffic-resistant grass; and

WHEREAS, The county should enforce present regulations designed to prevent erosion during lumbering and logging operations; now, therefore, be it

*Resolved by the General Assembly of Maryland*, That the County Commissioners of St. Mary's County are urged to study the recommendations presented by the Beautification Committee and take whatever action necessary in providing that the land on which we live will pass to those who come after without the ugly scars of erosion to mar its natural beauty, and will provide protection for the economy of the county; and be it further

*Resolved*, That copies of this Resolution be sent to the County Commissioners of St. Mary's County.

Approved May 6, 1966.
