

(b) *Incorporated cities, towns, and municipalities may by ordinance permit the operation within their respective jurisdiction of any motor bus with a maximum outside width of not to exceed 102 inches.*

(c) *Nothing in this section shall be construed to prevent the operation of passenger buses upon the highways of this State which are designated as the State Primary System, but not to include those highways which are part of the National System of Interstate and Defense Highways, having an overall width of 102 inches, exclusive of safety equipment. If federal law and regulations thereunder permit the operation of passenger buses of widths in excess of 96 inches on the National System of Interstate and Defense Highways, the State Roads Commission, by special or general order, may permit the operation of passenger buses having an overall width of 102 inches, exclusive of safety equipment, on the federal interstate and defense highways.*

§ 14-103. *Projecting loads on passenger vehicles.*

*No passenger-type vehicle shall be operated on any highway with any load carried thereon extending beyond the line of the fenders on the left side of the vehicle or extending more than 6 inches beyond the line of the fenders on the right side thereof.*

§ 14-104. *Height and length of vehicles and loads.*

(a) *No vehicle including any load thereon shall exceed a height of 13 feet 6 inches, provided, however, the users of highways on which bridges with a clearance of less than 13'6" are located shall save harmless the owners of the bridges from any cause of action instituted against the owners for any damage caused by colliding with the bridges provided the damage is the proximate result of the height of the bridge or bridges.*

(b) *No single unit truck, including the load thereon, shall exceed 40 feet in length, inclusive of front and rear bumpers, and no other vehicle and no combination of vehicles including the load thereon shall exceed 55 feet in length inclusive of front and rear bumpers, except as otherwise provided in this section.*

(c) *A tractor and semitrailer combination, engaged in the transportation of motor vehicles, shall not exceed 55 feet in length inclusive of front and rear bumpers, but this limitation shall be exclusive of the overhang of the transported vehicles.*

(d) *The provisions of subsection (b) shall not apply to:*

(1) *Vehicles or combinations of vehicles engaged in the transportation of utility poles by or for any public utility company;*

(2) *Vehicles or combinations of vehicles engaged in the transportation of piling and/or poles or mill logs; or*

(3) *Vehicles or combinations of vehicles engaged in the transportation of boats or vessels commonly known as crew or rowing shells for use in interscholastic or intercollegiate rowing contests.*

(e) *Nothing in this section prohibits the transportation, by a combination of vehicles, of articles impossible of dismemberment which do not exceed 70 feet in length.*
