No. 45

(House Joint Resolution 41)

House Joint Resolution requesting the Legislative Council to study and report on the State Agencies having the power to summon persons and documents by process of subpoena.

The Members of the General Assembly of Maryland are requesting the Legislative Council to study and report on the several State agencies which have subpoena powers to summon persons or to require the production of records and papers.

There are many grants of subpoena power in the State code. They raise close and vital questions of governmental policy and philosophy. There is on the one hand the need for governmental power in order to accomplish the controls and regulatory authority given to these several agencies. On the other hand, there is the constant need to give the individual citizen the maximum possible freedom from governmental controls.
