

Art. 66C, §417 and set forth here for organizational purposes.

In paragraph (3), new language is added to specify that the disease must be "contagious or infectious" in order to maintain consistency with this section. In paragraph (4) the reference to "regulations" of the department is proposed for deletion and "order" is substituted to distinguish between department rules and regulations adopted pursuant to the Administrative Procedure Act and emergency orders issued pursuant to this section.

Paragraph (8) is new language derived from Art. 66C, §429 of the Code and set forth here for organizational purposes. The provision of §429 referring to "buildings, sheds, stables, stable furniture, hay, straw or fodder or feed" is omitted here and "article" substituted. The general legislative intent seems to be to allow destruction of any article that might spread a contagious or infectious disease.

Paragraph (10) is new language derived from Art. 66C, §466 of the Code and set forth here for organizational purposes.

Subsection (b) presently appears as Art. 66C, §419 of the Code. A reference to an "agent" of the Secretary is added to maintain consistency with other sections of this title.

Subsection (c) is new language derived from a similar provision of Art. 66C, §416. This section refers to "other law enforcement officers of the State" instead of the present language "officers of the State" in order to clarify the probable legislative intent.

Subsection (d) presently appears as Art. 66C, §424 of the Code and is set forth here for organizational purposes.

The only other changes made are in style.
