

is classified by the Federal Internal Revenue Service as ~~[[nonprofit]]~~ non-profit.

(b) ~~[[Pior]]~~ Prior to the authorization of any construction grant under this Act for any facility, the applicant shall file with the State Department of Health and Mental Hygiene:

(1) A financial statement setting forth the personnel employed or to be employed, all remunerations and ~~[[prerequisites]]~~ perquisites for personal services and other expenses paid or to be paid and the expenses incurred or to be incurred in carrying out the nursing home operation; and

(2) The schedule of rates charged or to be charged for services rendered.

(c) The Secretary of Health and Mental Hygiene is hereby authorized and directed to promulgate rules and regulations to carry out the intent of this Act and these rules and regulations shall provide for certified annual financial statements from each facility, and other reports as required. This information shall be required annually for at least the term of the ~~[[Certificates of Indebtedness]]~~ bonds authorized under this Act.

(d) Any public or ~~[[nonprofit]]~~ non-profit agency sponsoring the construction of an eligible facility or the expansion of an existing eligible facility in this State may apply to the State Department of Health and Mental Hygiene for a State grant toward the cost of that project. The allocation and use of State funds under this Act shall be governed by and subject to the following stipulations and limitations:

(1) State funds may be used only for the construction and equipping of public and other ~~[[nonprofit]]~~ non-profit facilities and for the purpose of reports, plans, and specifications in connection therewith, and for the purpose of site improvements, surveys, and programs in connection therewith.

(2) If, at the time of application for State funds under this Act, federal funds are also available for this purpose, these federal funds shall be applied first to the project, in accordance with applicable federal regulations, and the State grant used to supplement the federal funds to the maximum extent that the total combined federal funds and State grant do not exceed 67% of the total eligible construction and equipment costs of the project. In any event, the State grant may not exceed 50% of the total eligible construction and equipment costs of the project.
