

(c) It shall be the duty of the Washington Suburban Sanitary Commission to construct when needed, on some convenient site or sites to be selected by it, an incinerator or incinerators of a modern type for the disposal of garbage, trash, rubbish, refuse or junk, and the commission may acquire such land as it may need for the disposition of garbage, trash or junk anywhere within or without the sanitary district. For the purpose of acquiring a site for an incinerator or incinerators or other refuse disposal plants, and for the purpose of securing land for the disposition of garbage, trash, or junk, the commission shall have the same right to condemn land as it now has under existing law for the condemnation of land for the construction of its water and sewer lines, which right shall extend to any needed land beyond the boundaries of the sanitary district.

(d) For the purpose of defraying the cost of such construction, including the necessary equipment and accessories, the commission is authorized to issue its bonds or notes under its hand and seal, in a sum not to exceed \$200,000 with interest [not to exceed 5% per annum] AS PROVIDED IN § 4-4 OF THIS ARTICLE, maturing serially, in such amounts annually as may be fixed by [said] THE commission, but all payable within a period of twenty years from date, and [said] THE bonds or notes shall be sold as the general construction bonds of [said] THE commission are now sold; and for the purpose of paying interest on [said] THE bonds and principal of the same as they become due, [said] THE commission is authorized to make and fix a reasonable schedule of charges for the reception and disposal of all garbage, trash, rubbish, refuse or junk. The receipts therefrom, including the permit fees heretofore, authorized, after the payment of the costs of operation shall be applied toward the payment of principal and interest, and in the event that the net proceeds of [said] THE fees and charges are not enough to meet the carrying charges of [said] THE bonds or notes, [said] THE commission is authorized to pay the difference out of the general water receipts provided for in this article; provided, however, that in the event part of the [said] water receipts are used for the carrying charges of [said] THE bonds or notes, the commission shall adjust the water rates, either consumption charge or service charge, in its discretion, on all property served by the commission to the extent necessary to meet [said] THE adjustment, which charges may be changed from year to year under the provisions of this article.

(e) The commission may exempt from the operation of this [article] SECTION, with the approval of the county health officer, any person, firm or institution residing in the above defined boundaries, engaged in feeding garbage to hogs.
