

(b) Except as provided in subsection (c) of this section, a tire on a vehicle driven on a highway may not have on its periphery any block, stud, flange, cleat, or spike or any other protuberance of any material, other than rubber, that projects beyond the tread of the traction surface of the tire, except that:

(1) It is permissible to use farm machinery with tires having protuberances that will not injure the highway;

(2) It is permissible to use tire chains of reasonable proportions on any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid;

(3) It is permissible for a vehicle not registered or required to be registered in this State to use tires as described in [subsection (b) of this section] THIS SUBSECTION; and

(4) Except in Allegany, Carroll, Frederick, Garrett, and Washington counties, a person may not sell or offer for sale in this State any tire which is not permitted to be used in this State under [subsection (b) of this section] THIS SUBSECTION.

22-412.2.

(f) If a physician licensed to practice medicine in this State [determines] DETERMINES, and so certifies in writing, that use of a child safety seat by a particular child would be impractical due to the child's weight, physical unfitness, or other medical reason, there is not a violation of this section.

22-511.

The penalties provided in [Article 19A, § 4] ARTICLE 40A, §§ 7-101 AND 7-103 of the Code apply to the conduct prohibited by Article VII of the Compact and any rule or regulation adopted under that article of the Compact.

24-106.2.

(b) The fastening of a load to a vehicle shall be:

(1) By two separate common coil B.B. chains, the links of which may not be less than:

(i) $\frac{3}{8}$ th of an inch in diameter for loads of 3 tons or less; or

(ii) $\frac{1}{2}$ of an inch in diameter for loads over 3 tons; or

(2) If they have at least as much tensile strength as the chains, by:
