

The Business Regulation Article Review Committee notes, for consideration by the General Assembly, that former Art. 56, § 257(b)(3) required a record of experience of the applicant, including dates and addresses of where the applicant has resided and done business. This requirement is revised in subsection (b)(8) of this section. In practice, however, the Commission requires the names and addresses of employers or, for applicants who manage their own businesses, the names and addresses of contractors or customers for whom the applicant has completed work.

The Committee also notes, for consideration by the General Assembly, that subsection (e) of this section, which revises former Art. 56, § 254(d), is not given effect by the Commission because it has been determined that the licensing schemes and licenses issued in other states are not comparable to those licenses issued under this title.
