- Page 209, line 11. Here and elsewhere there are discrepancies between the Journal and Letter-book in the numbering of these letters. The nos. of the Letter-book are followed in the margin, and those of the Journal added in brackets.
- Page 209, line 18. Apparently should be Smyth and Perkins.
- Page 218, line 29. Original torn.
- Page 226, line 27. "K<sup>t</sup>" should be Cecil.
- Page 236, line 25. "Dhugié." Perhaps d'Huger.
- Page 244, line 6. "of" should be "for."
- Page 261, line 33. This letter is found only in C. S. C.<sup>2</sup>, which, as usual, is scandalously careless. The corrections in brackets are conjectural. The text reads: "and the few degrees that provision general will be adopted by the Convention, I am therefore desire by the Gentlemen who are grosest to request you will give notice to your Battalion to render as soon as possible that things may be in few and cross for the execution of such invassends as may be solved only by the Convention, which it is beged," etc. It is extremely fortunate that we have been able to print nearly all these letters from the original autographs.
