

1 such as he mentions might be performed by a member of
2 the Executive Department under the rule-making power of
3 the Court of Appeals; so I do not think that the absence of
4 this amendment in the Constitution would prohibit or in
5 any way prejudice the operation of the judicial system.

6 May I also say to Delegate Carson that every-
7 thing he said good about his sheriff in his county applies
8 to the sheriff in my county. He is an efficient, capable
9 and conscientious elected official. However, we do not
10 need this constitutional amendment to let him continue
11 in office for the balance of his elective term, nor do we
12 need this constitutional provision in this draft to allow
13 the legislature or local government to provide for con-
14 tinuance of such an office. Therefore, I oppose this amend-
15 ment.

16 THE CHAIRMAN: For what purpose does Delegate
17 Bushong arise?

18 DELEGATE BUSHONG: I want to ask Delegate Mudd
19 a question.

20 THE CHAIRMAN: Before you do that, is there any
21 delegate desires to speak in favor of the amendment?
