

ADDENDA AND ERRATA

It will be obvious to every reader of the MARYLAND MANUAL that a book of this kind can never be wholly accurate on the date it appears. The very last changes were made in proof on December 15, 1969. But at that time, while some of the book is believed to be accurate as of that date, other parts of the book, for example the Legislature, are accurate only through November 10, 1969.
