

statewide air sampling and monitoring network and collection stations for acid deposition. Regularly, the Program prepares air quality data reports and manages air data bases for other programs. The Program also conducts special sampling studies for toxics and other purposes.

AIR TOXICS & NEW SOURCE PERMITS PROGRAM

Donald Andrew, *Administrator*
631-3225

The Air Toxics and New Source Permits Program was established in September 1988. The Program reviews applications and issues permits for businesses to construct new industrial processes or modify existing ones that might become sources of air pollution. The Program also ensures compliance with emission standards for toxic air pollutants from new and existing sources. Permits also are issued to allow businesses to sell or burn waste oil with specified equipment.

ENFORCEMENT PROGRAM

Ronald Lipinski, *Administrator*
631-3220

Organized in September 1988, the Enforcement Program conducts inspections and enforces air pollution laws and regulations affecting industries that are major and technically demanding stationary sources of air pollution. The Program also administers the Operating Permit Program of the Air Management Administration.

COMMUNITY ENVIRONMENTAL SERVICES PROGRAM

Frank Whitehead, *Administrator*
631-3200

The Community Environmental Services Program has been responsible for State asbestos and noise programs since September 1988. The Program enforces air quality standards as they relate to areas such as asphalt plants, quarries, special medical waste incinerators, and training for incinerator operators. The Program responds to all citizen complaints regarding air pollution and coordinates the emergency response activities of the Air Management Administration. To allow for statewide actions, regional offices are maintained in Western Maryland as well as on the Eastern Shore.

MOBILE SOURCES CONTROL PROGRAM

Daniel Meszler, *Administrator*
631-3270

The Mobile Sources Control Program was formed in September 1988 to deal with mobile sources of air pollution. The Program sets standards for motor

vehicle emissions and helps administer the Motor Vehicle Emissions Inspection Program (VEIP).

HAZARDOUS & SOLID WASTE MANAGEMENT ADMINISTRATION

Richard W. Collins, *Acting Director*

2500 Broening Highway
Baltimore, MD 21224
631-3304

The Hazardous and Solid Waste Management Administration originated as the Waste Management Administration in the Department of Health and Mental Hygiene. It became part of the Department of the Environment in 1987 (Chapter 306, Acts of 1987) and received its present name in 1988. The Administration provides for the safe collection and disposal of solid wastes. It regulates and inspects industrial wastewater treatment facilities and controls the transport, storage, and disposal of hazardous substances.

Industrial wastes may not be discharged nor designated hazardous substances disposed of without an Administration permit. The Administration conducts inspections to assure compliance with the conditions of permits, certifications, and licenses that have been issued and investigates reported water and pollution violations. It also administers the Resource Conservation and Recovery Planning Act. The Office of Recycling within the Solid Waste Program leads State recycling initiatives.

Under the Administration are seven programs: Operational Management; Solid Waste; Hazardous Waste; CERCLA/UST/LUST; Enforcement; Industrial Discharge; and Emergency Response.

CONTROLLED HAZARDOUS SUBSTANCE ADVISORY COUNCIL

Scott Burns, *Chairperson*, 1993

Appointed by Governor (10 with advice of Secretary of the Environment; 3 with Senate advice & consent): David T. Lewis, 1990; Gary L. Smith, 1991; Richard G. LaBrocco, 1992; George G. Perdikakis, 1992; Sanford M. Shapiro, 1992; Dennis J. Brady, 1993; Paul R. Gartelmann, 1993; Stephen L. Pattison, 1993; David H. Rosenblatt, Ph.D., 1993; Byron S. Tepper, Ph.D., 1993; Jeffrey L. Tryens, 1993.

Staff: Karen Roof
631-3305

The Controlled Hazardous Substance Advisory Council was created in 1976 (Chapter 618, Acts of 1976). Formerly under the Department of Health and Mental Hygiene, the Council was placed within the Department of the Environment in 1987 (Chapter 306, Acts of 1987).

The Council advises the Department and assists in identifying any hazardous substance as a controlled hazardous substance. The Council also helps
