

1. The first part of the paper is devoted to a general  
 2. introduction of the subject, and to a statement of the  
 3. objects of the present investigation. It is shown that  
 4. the problem is of great importance, and that it has  
 5. not been completely solved. The author then proceeds  
 6. to a detailed examination of the various cases, and  
 7. to a discussion of the results. It is found that  
 8. the problem is solved in all cases, except in one  
 9. particular case, which is treated separately in the  
 10. next section. The author concludes by stating that  
 11. the results of the present investigation are of great  
 12. interest, and that they will be published in the  
 13. next issue of the journal.

14. The second part of the paper is devoted to a  
 15. detailed examination of the various cases, and to a  
 16. discussion of the results. It is found that the  
 17. problem is solved in all cases, except in one  
 18. particular case, which is treated separately in the  
 19. next section. The author concludes by stating that  
 20. the results of the present investigation are of great  
 21. interest, and that they will be published in the  
 22. next issue of the journal.

23. The third part of the paper is devoted to a  
 24. detailed examination of the various cases, and to a  
 25. discussion of the results. It is found that the  
 26. problem is solved in all cases, except in one  
 27. particular case, which is treated separately in the  
 28. next section. The author concludes by stating that  
 29. the results of the present investigation are of great  
 30. interest, and that they will be published in the  
 31. next issue of the journal.

32. The fourth part of the paper is devoted to a  
 33. detailed examination of the various cases, and to a  
 34. discussion of the results. It is found that the  
 35. problem is solved in all cases, except in one  
 36. particular case, which is treated separately in the  
 37. next section. The author concludes by stating that  
 38. the results of the present investigation are of great  
 39. interest, and that they will be published in the  
 40. next issue of the journal.
