

1                   MRS. BOTHE: But you don't feel there is any  
2                   necessity for a safeguard in case the Legislature should  
3                   decide to do away with the Governor's salary?

4                   MAYOR MCKELDIN: Being a Republican --

5                   MRS. BOTHE: A Democratic Legislature.

6                   MAYOR MCKELDIN: I think there should be a  
7                   safeguard, being a Republican, the Legislature will always  
8                   be Democratic for the next 100 years, but it might be nice  
9                   to have a safeguard in there for us people every twenty  
10                  years when we get elected.

11                  MR. ENEY: Mr. Mayor, thank you very, very  
12                  much.

13                  JUDGE ADKINS: Thank you very much.
