

**I. M. SINGER & CO'S  
IMPROVED  
SEWING MACHINES,  
No. 105 Baltimore-st., Baltimore.**

**THE HIGHEST PREMIUM, A GOLD MEDAL,**  
Was Awarded this Machine at the late Paris Exhibition,

AND IT IS UNIVERSALLY ACKNOWLEDGED

**SUPERIOR TO ALL OTHERS.**

The late improvements in this Machine have simplified them in many respects, and they are capable of executing twice the amount of work they did formerly in any given time. They are without question the only Machines capable of sewing every variety of goods perfect; a shirt bosom or heavy trace for harness can be sewn by any of these Machines, by a simple change of needle and thread in such a manner that the closest scrutiny cannot detect a fault.

Manufacturers, Planters and Families, will find them the only safe Machines to purchase, as they are built strong and durable, and not likely to get out of order.
