NO. 15.

(Senate Joint Resolution 9)

Joint resolution of the General Assembly of Maryland, directing the appointment of a commission to investigate existing sanitary facilities in Allegany County with respect to water supply and sewerage systems, to determine the most feasible method of correcting existing insanitary conditions, and to prepare recommendations for appropriate legislative action.

WHEREAS, many unincorporated communities in Allegany County now lack public water supply and sewerage systems and the present methods of obtaining water for domestic consumption in other communities and the methods of disposing of sewage therefrom constitute a potential menace to the public health; and

WHEREAS, some of the existing public water supply systems in Allegany County do not supply sufficient quantities of water of satisfactory quality to meet the demands of the consumers for domestic and industrial consumption; and

WHEREAS, legislative authority is lacking to intelligently and economically correct these conditions in conformity with reasonable long range planning; therefore, be it

*Resolved by the General Assembly of Maryland,* That a commission be appointed to consist of seven members, four to be appointed by the Board of County Commissioners of Allegany County, one by the Mayor and City Council of the City of Cumberland, and with the Director of the State Department of Health of Maryland or some one designated by him and the Chief Engineer of the Public Service Commission of Maryland as ex-officio members thereof, to investigate existing sanitary facilities with respect to water supply and sewerage systems in Allegany County, to determine the most feasible method of correcting those conditions which, due to the lack of adequate sanitary facilities, are deemed detrimental to public health, safety, comfort and convenience; and
