

designated by the Governor and two of whom, to serve as ex officio members, shall be the Director of the Budget and the Chief Engineer of the State of Maryland; and be it further

*Resolved*, That the said Commission be and it is hereby authorized and directed:

(1) To assemble data and information concerning the savings to the State which may result through joint use by various State Departments, agencies and personnel of conference rooms, hearing rooms and other space, and through joint use of postage, telephone, messenger and other services and facilities, and concerning any other advantages or disadvantages which may result from the erection or acquisition of a State Office Building;

(2) To investigate possible sites for the erection of a State Office Building particularly in or near the business district of Baltimore City.

(3) To investigate the possible purchase or other acquisition of an existing building or buildings for use as a State Office Building;

(4) To have prepared preliminary plans and cost estimates for the erection of a State Office Building;

(5) To study the existing and possible uses of the present State Office Building at Annapolis in order that it may supplement said proposed State Office Building; and

(6) To assemble all other information necessary for a complete report, with recommendations, as to the advisability, practicability and cost of erecting or otherwise acquiring a State Office Building, or buildings, and as to the location therefor, and to render such report to the Governor, on or before December 1, 1950, for presentation to the 1951 Session of the General Assembly.

Approved March 28, 1950.
