

MESSAGE FROM THE EXECUTIVE

EXECUTIVE DEPARTMENT

March 14, 1964.

Mr. President and Members of the Senate:

Four days ago I issued a proclamation asking you to convene in extraordinary session to consider some legislative measures which I felt demanded your immediate attention.

Among the issues which I thought merited your consideration were proposals to rearrange the Congressional Districts of the State to meet Federal Court requirements, to reconstitute the Legislative Districts of Baltimore City in accordance with a ruling of the Circuit Court of that City and a measure to provide for equality of public accommodations. There was also the matter of passing a bill to enable the State to continue its highway program.

The purpose of this message is to express to you my appreciation, and the appreciation of the people of Maryland, for the diligent manner in which you handled these controversial and troublesome problems during this short time.

On behalf of the people of Maryland, I wish to commend you for the excellent way in which you have discharged your responsibilities in the high office you hold.

With kindest regards and best wishes to all of you, I am,

Sincerely,

J. MILLARD TAWES, *Governor*

Which was read.

ADJOURNMENT

At 11:45 o'clock P. M., on motion of Senator Wheatley, duly seconded, the Senate adjourned sine die.
