

EXECUTIVE ORDERS

D. Scope of the Subcommittee on Uninsured Persons. Under the Commission's direction, the Subcommittee shall examine the problems which individuals who lack health insurance or have only adequate insurance experience in obtaining needed health care. The Subcommittee will also examine the effect which the uninsured and underinsured have on the health care system. During its first year of operation, the Subcommittee's highest priorities will include:

(1) A determination of which preventive, primary and acute care services should be available to all Marylanders within the financial parameters specified by the Commission.

(2) Development of options for financing health care for the uninsured and underinsured, and creating financial and policy incentives to achieve the desired mix of services;

(3) Review of recommendations from the Alliance for Responsible Health Care; and

(4) Such other necessary duties as assigned by the Commission.

E. Scope of the Subcommittee on Long Term Care. Under the Commission's direction the Subcommittee shall examine the long term care needs of children and adults in the following groups: the frail elderly, the severely retarded, the chronically ill, the chronically mentally ill, substance abusers, persons with AIDS, and persons in need of rehabilitative services. During its first year of operation, the Subcommittee's highest priorities will include:

(1) A determination of which long term care services should be available to all Marylanders, within the economic parameters specified;

(2) Development of options for financing long term care, and creating financial and policy incentives which will provide the desired types of services; and

(3) Such other necessary duties as assigned by the Commission.

F. Scope of the Subcommittee on Mandated Health Insurance Benefits. Under the Commission's direction the Subcommittee shall have the following charges:

(1) To investigate the impact of mandated benefit laws on the people of this State to determine both the benefits derived from, and the economic and social costs relating, to these laws;
