2-510.

(f) (2) The foundation shall adopt by [rule and] regulation a standard priority ranking system by which it shall rank each application. The system shall be based on the following criteria as to the easements offered in any one county:

(i) The applications shall be assigned a rank in ascending order with respect to the proportion obtained by dividing the asking price by the State easement value. The resulting rank shall be the sole criterion for establishing the priority for discounted applications that include proportions of 1.0 or lower.

(ii) All additional applications which include proportions greater than 1.0 shall be assigned a numerical value that, in regard to the land for which the easement is offered, reflects:

1. The relative productive capacity of the land;
2. The extent to which the easement acquisition will contribute to the continued availability of agricultural suppliers and markets for agricultural goods; and
3. The priority recommendations of the local governing bodies.
