(A) Chesapeake Bay Water Quality Project Funds. Provide funds to be credited to the Water Pollution Control Fund to be used for projects to improve the water quality of the Chesapeake Bay and other waters of the State. These funds shall be administered for the purposes listed below in accordance with Sections 9-345 through 9-351 of the Environment Article:

- (1) To provide not more than ~~\$10,550,000~~ \$17,832,000 in grants for projects to remove nutrients at publicly-owned sewage treatment works, provided that \$1,000,000 of this authorization may only be expended as follows:

the Maryland Department of the Environment shall conduct three types of wastewater system studies as recommended by the Governor's Task Force on Upgrading Sewerage Systems. First, the Department shall contract with the Maryland Environmental Service to conduct a comprehensive inflow and infiltration data study on every wastewater treatment system with an average wastewater discharge of under 12 million gallons per day. The study shall involve a statewide analysis using readily accessible existing data and shall determine whether there is an inflow and infiltration problem and, if so, determine the magnitude of the problem. Second, the Department shall contract with the Maryland Environmental Service to conduct between three and six comprehensive in-depth inflow and infiltration studies at selected wastewater treatment systems around the State that are representative of the inflow and infiltration problems around the State. Third,
