

The *Maryland Manual On-Line* is updated continually at [www.mdmanual.net](http://www.mdmanual.net). The compact disc (CD), sleeved on the back cover of this book, reflects the entire *Manual* website as of December 2005.

To use the self-executing CD, simply insert it in your computer CD reader. Its contents automatically will appear on your screen if Microsoft Internet Explorer (version 4 or above) is installed on your computer. [Explorer does not have to be the default browser.] This CD will not work on a Mac platform.

If the presentation does not start automatically, even though Internet Explorer is installed, go into Windows Explorer, navigate to the CD drive, and double click on *mm2005.exe*.

Use the CD in the same manner as you would the Web, searching and clicking on links as necessary. In order for external links to work, you must have Internet access.
